

Cascade Training Checklist

1.	Safety	Initials and
0	Has been shown how to use the Whzan equipment by the Super-	date
	user	
0	Aware of how to maintain the Whzan equipment – Replacement batteries, charging, storage	
0	Knows how to report broken or faulty equipment	
0	Knows how to clean the Whzan equipment after each use.	
0	Understands the importance of single use equipment – e.g.	
0	thermometer covers Has been given a copy/received training on the local escalation	
	procedure for the unwell resident/client	
0	Understands that when taking observations, PPE (gloves, apron) is	
	not required unless specifically stated for that service user (eg.	
	Service user in isolation)	
2.	Caring	Initials and
	Finds on appropriate time to undertake about ations	date
0	Finds an appropriate time to undertake observations Asks for and actively seeks consent to take observations	
	Takes time to engage, explaining each observation and what to	
	expect	
0	Respects the individual's wishes	
0	Acts in a considerate manner to ensure comfort during the recording of observations	
	of observations	
3.	Knowledge	Initials and
3.	Knowledge Can outline the reasons for undertaking a set of vital signs	Initials and date
	Can outline the reasons for undertaking a set of vital signs observations	
	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the	
0	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations	
0	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations Understands normal variants for individuals	
0	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations	
0	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations Understands normal variants for individuals Understands the effect of external factors e.g. clothing, nail varnish, positioning Understands the purpose and relevance of a NEWS 2 score	
0 0	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations Understands normal variants for individuals Understands the effect of external factors e.g. clothing, nail varnish, positioning Understands the purpose and relevance of a NEWS 2 score Knows what to do in the event of abnormal vital	
0 0 0	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations Understands normal variants for individuals Understands the effect of external factors e.g. clothing, nail varnish, positioning Understands the purpose and relevance of a NEWS 2 score Knows what to do in the event of abnormal vital signs/NEWS2/unwell resident or client	
	Can outline the reasons for undertaking a set of vital signs observations Has knowledge of normal and abnormal ranges for each of the observations Understands normal variants for individuals Understands the effect of external factors e.g. clothing, nail varnish, positioning Understands the purpose and relevance of a NEWS 2 score Knows what to do in the event of abnormal vital signs/NEWS2/unwell resident or client Knows how to access previous readings on the tablet Knows how to access the Whzan portal and view the latest and
